

## CASE STUDY

# HOWARD'S STORAGE WORLD, NUNAWADING

"If I had to process the payroll and calculate superannuation contributions myself, it would easily take me an entire day per pay process. Why go through the hassle and spend my valuable time when I could hand it over to payroll experts and spend 15 minutes every fortnight?"

Barry Game,  
Franchisee

### BACKGROUND

When it came to opening a new Howard's Storage World, experienced franchisee Barry Game took advantage of outsourcing his payroll of 10 employees to ADP. With his experience through a previous franchise and Howard's Storage World, Barry has outsourced his payroll to ADP for almost nine years.

### PROVEN EXPERTISE

"If I had to process the payroll and calculate superannuation contributions myself, it would easily take me an entire day per pay process," says Barry. "Why go through the hassle and spend my valuable time when I could hand it over to payroll experts and spend 15 minutes every fortnight?"

Barry's employees appreciate the professional payslips they receive and Barry likes that he can use his

payroll records as a reference if his employees have a question about their pay calculation. "It would be so easy for me to make a calculation mistake and it could take me forever to find it. The payroll records I receive from ADP set my and my employees' minds at ease."

### SCALEABLE SOLUTIONS

When he opened a new Howard's Storage World franchise in July 2006, Barry didn't think twice about outsourcing his payroll to ADP. "Payline equally suits my small business of 10 employees as it did for my previous franchise of thirty," says Barry.

### COMPLIANT SOLUTIONS

"Because I use ADP Payline, I know my payroll is legislatively compliant," says Barry, "There are so many complexities and changes that I don't have time to worry about and it isn't my area of expertise. ADP keeps me educated and informed about what I need to know and lets me focus on growing my business and taking care of my customers."
